ABOUT ME

Test Engineer with experience in UI, functional, and data-driven testing. Skilled in using Python, Selenium, and PyTest to build test frameworks. Worked on AI/ML model testing and integrated tests with CI/CD tools like Jenkins and Git. Google Data Analytics Certified with good test design and defect tracking skills.

WORK EXPERIENCE

MOOLYA TESTING

Exploratory Tester Jan 2025–July 2025

- Automated testing of the Frammer AI web application using Python, Selenium, and PyTest, ensuring AI model accuracy, fairness, and consistent user experience across multiple browsers. Designed and executed data-driven test cases to validate precision and recall.
- Collaborated with cross-functional teams during Agile ceremonies to report, track, and resolve defects. Maintained robust automation test suites and integrated them into CI/CD pipelines using Jenkins and Git for continuous quality delivery.
- Developed automated test scripts to validate generative AI models using Python libraries such as Transformers (Hugging Face) and OpenAI API. Focused on prompt validation, context management, and output consistency for LLM-based features.

FREELANCING PROJECT

Test Engineer June 2024 – Dec 2024

- Designed and developed a dynamic, responsive website using HTML, CSS, Java, Python, and SQL, incorporating CorelDraw for clean UI design.
- Integrated features like product display, online booking, and career submissions, and performed cross-functional testing for end-to-end functionality

APPLIC SOLUTIONS CO. | EXIMIETAS DESIGN

Software Test Engineer JUNE 2023–FEB 2024

- Maintained and enhanced Python-based UI automation frameworks with a focus on data-driven and keyword-driven testing approaches.
- Collaborated with cross-functional teams to design and execute automated test suites for UI Controllers.
- Improved test reliability and coverage through reusable validation logic and regression automation.
- Managed test documentation to support framework scalability and ease of maintenance.

SKILLS

- Python
- Git, GitHub
- Machine Learning
- NumPy, Pandas
- Selenium WebDriver
- TestNG
- Functional Testing
- API Testing (Postman)
- Data-Driven Testing

PROJECTS

- House-Price-Prediction-using-Machine-Learning
- Predict-Fuel-Efficiency-Using-Tensorflow-in-Python
- Gold-Price-Prediction-using-Machine-Learning

CERTIFICATIONS

- Google Certificates: Data for Exploration
- Foundation: Data Everywhere
- Moolya: Python, SQL, Selenium, Manual Testing

EDUCATION

BACHELOR OF
ENGINEERING
KLE INSTITUTE OF
TECHNOLOGY HUBLI
2017 JUNE – 2020
AUG
